Claims 43-60 have been withdrawn from consideration without prejudice or disclaimer. In making this withdrawal without prejudice, Applicants reserve all rights in these claims to file divisional and/or continuation patent applications.

35 U.S.C. § 121 Restriction

In the Office Action, the Examiner required a restriction under 35 U.S.C. 121 to one of the following groups of claims, which two groups the Examiner considers to be patentably distinct:

- I. Claims 1-42, collecting security data and providing the security data to security stations, classified in class 726, subclass 6.
- II. Claims 43-60, drawn to details used for capturing an image of a part of a body using a camera by capturing, comparing and calculating a distance of height of a body part, classified in class 382, subclass 115.

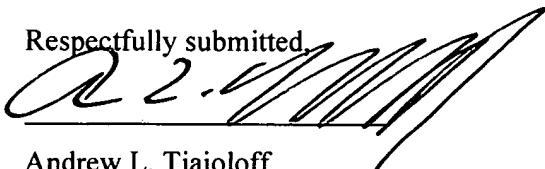

Although Applicant does not agree with the Examiner's position, in the interest of expediting prosecution of the above reference Application, **Applicant elects claims 1-42 for further prosecution** and with traverse withdraws from consideration claims 43-60.
